DOUBLE STAR LISTS AND RESOURCES

The Washington Double Star Catalog. The 'Bible'.... up-to-date data on 100 000+ pairs... Quite a learning curve but worth the effort for the data contained.....

An excellent list of Double Stars by Constellation....

Another list of Double Stars from the Astronomical League. This one is in R.A. order. You can get a certificate for logging all of these.....

There are innumerable other resources but the above will get you started. I also recommend the "Double Star" forum on Cloudy Nights - a free site for amateurs. Plenty of experienced observers lurk there and will answer all your questions.
